Opinion from the Company's Management Board providing justification for exclusion of the existing shareholders' pre-emptive rights to series I shares and describing the means for establishing the series I share issue price

Acting pursuant to art. 433 § 2 of the Polish Commercial Companies Code, the Management Board of WIKANA S.A., based in Lublin, provides hereby an opinion on exclusion of the existing shareholders' pre-emptive rights to series I shares:

In connection with plans to acquire a strategic partner, and considering the Company's current growth plans, the Management Board of WIKANA S.A., based in Lublin, hereby recommends that the General Meeting excludes the existing shareholders' pre-emptive rights to series I shares in full and offers the new-issue shares to a new shareholder of WIKANA S.A., to be selected by the Company's Management Board in accordance with the objectives of the share capital increase, as specified below.

The Company intends to increase its share capital by an amount no lower than PLN 2.00 and no higher than PLN 11 000 000.00, i.e. from PLN 40 029 594.00 to no less than PLN 40 029 596.00 and no more than PLN 51 029 594.00. The Company intends to issue no less than 1 and no more than 5 500 000 series I ordinary bearer shares, with a nominal value of PLN 2.00 each.

The issue is to take place via private subscription, addressed to one or more investors indicated by the Management Board.

The share issue, and the capital raised through it, will be used to continue executing the Company's adopted strategy, which includes among others: an increase in market share, alongside development of new investments, by increasing the Company's own contribution in residential development projects from its own land bank, which will have an impact on the Company's results in subsequent reporting periods.

At the same time, equity will increase as a result of the new share issue, which is relevant from the viewpoint of the Company's proper growth. This will have a positive impact on the Company's balance sheet structure.

According to the Management Board, exclusion of the existing shareholders' pre-emptive rights and addressing the share issue to a strategic investor, who will express an interest in an equity investment in the Company at a level higher than would be possible through purchasing

shares in regular trading on the public market, constitutes a quick and relatively easy, as well as cheap, procedure for increasing share capital.

Considering the above, excluding the existing shareholders' pre-emptive rights to series I shares is in the Company's interest and is not in conflict with the interest of the existing shareholders.

Acting pursuant to art. 433 § 2 of the Polish Commercial Companies Code, the Management Board of WIKANA S.A., based in Lublin, provides hereby an opinion on the means for establishing the series I share issue price:

Considering the necessity to hold negotiations with the investor who is to acquire the series I shares, the Management Board proposes that the series I share issue price be established by the Company's Management Board at a level corresponding to the Company's fair value, with consideration given to the Company's interest.

The Company's Management Board will adopt the relevant resolution after obtaining an opinion from the Supervisory Board. In establishing the issue price, the Management Board will take into consideration the Company's financial and operational situation, conditions on the markets on which the Company operates, as well as conditions on the WSE - where the Company's shares are listed. In addition, the established issue price should ensure that the new-issue shares will be acquired and that the Company will be sufficiently recapitalised. Therefore, the final issue price will be established by the Company's Management Board following an assessment of all of the above elements, so as to create a real basis for achieving the intended economic objectives.
